

Stacy Tomasi

UX Designer & Analyst | Interaction Design | Usability Evaluation

San Jose, CA | 408.431.5547 | stacy.tomasi@gmail.com | tomiux.com (portfolio) | [LinkedIn](#)

Summary

I find what's broken and design the fix. Ten years at Coursera, WorkBoard, and Illumio trained me to diagnose friction systematically, document findings, and translate ambiguous problems into clear recommendations. That same instinct, now backed by formal UX methods, applies directly to usability evaluation and interaction design. Master of Science Candidate (MS) in User Experience, Kent State University, Dec '26.

Portfolio / [TomiUX](#)

Select case studies in heuristic evaluation ([Pottery Barn](#)), interaction design ([August Home](#)), usability research ([Philz Coffee](#)), and accessibility annotations for developers ([StubHub](#))

Education

Master of Science Candidate (MS) in User Experience, Kent State University, Dec 2026

Coursework: UX Evaluation, Interaction Design, Accessibility & Universal Design, Usability Research, UX Processes & Practice

Bachelor of Science (BS) in General Psychology, Capella University

Skills

Research & Evaluation: Heuristic evaluation, UX auditing, cognitive walkthrough, usability testing (moderated & unmoderated), severity rating, user interviews, surveys, affinity mapping, journey mapping, user personas

Interaction Design: Prototyping (Figma, paper), wireframing, task flow analysis, design patterns, iOS/Android UI, card sorting, information architecture

Accessibility: WCAG 2.2, VoiceOver (Mac & iOS), Color Contrast Analyzer, Coblis

Tools: Figma, FigJam, UserTesting.com, Lyssna, Maze, Loop11, Dovetail, Wave, Google Workspace, Microsoft Office, Canva, Slack, Lovable, GitHub, Claude AI

Professional Experience

Operations Manager, FRI Energy Consultants, San Jose, CA Apr 2023 – Present
(previously Office Manager, Apr 2012 – Feb 2018)

- Audit service delivery processes to identify friction points and redesign workflows that reduce client effort and operational overhead
- Translate complex technical information into clear client-facing documentation and proposals
- Track performance metrics and report outcomes to leadership for systems built to run independently between engagements

Workplace Services Manager, Illumio, Sunnyvale, CA Jul 2022 – Apr 2023

- Conducted structured user research with new hires, identified onboarding pain points, and redesigned resource materials to improve clarity and usability
- Translated ambiguous post-COVID requirements into a clear Return to Work protocol that users could actually navigate
- Developed a digital communication strategy to improve employee awareness and engagement with workplace programs

People Experience Manager, WorkBoard, Redwood City, CA Jun 2021 – Jul 2022

- Designed and launched a company-wide intranet in the first 60 days, achieving 91% adoption through intentional information architecture and content strategy
- Designed end-to-end attendee experience for a 250-person company off-site, owning every touchpoint from hotel to A/V to on-site engagement
- Owned participant experience for a vendor-led Leadership Impact Program serving 25% of the employee base, managing communications and logistics end-to-end
- Planned and facilitated quarterly OKR alignment off-sites and 10+ monthly hub meet-ups for a distributed workforce

Engagement Manager, Coursera, Mountain View, CA Feb 2018 – Jun 2021
(promoted from Administrative Project Manager / Space Planner)

- Conducted field observations studying how employees and visitors entered and used physical spaces, including navigating first-contact moments, using findings to inform spatial and program design decisions
- Evaluated post-event engagement through structured surveys across 900+ employees, iterating on program design based on findings
- Led a \$1.3M two-building expansion from pitch through delivery, conducting executive interviews to understand team needs and designing zoned environments that scaled on-site capacity from 400 to 800 employees
- Conceived, pitched, and executed Camp Coursera, a week-long virtual event for 800+ globally distributed employees, taking the program from idea to delivery in three weeks
- Designed, branded, and launched a 5-program virtual event system for 1,000+ employees during COVID, building the logo system, flyer templates, and program identities in response to research on isolation and connection needs
- Managed a \$1M employee experience budget, set priorities, evaluated ROI, and contributed to a 98% employee pulse survey participation rate
