

Stacy Tomasi

UX Designer & Analyst | Interaction Design | Usability Evaluation

San Jose, CA | 408.431.5547 | stacy.tomasi@gmail.com | tomiux.com (portfolio) | [LinkedIn](#)

Summary

I find what's broken and design the fix. Ten years at Coursera, WorkBoard, and Illumio trained me to diagnose friction systematically, document findings, and translate ambiguous problems into clear recommendations. That same instinct, now backed by formal UX methods, applies directly to usability evaluation and interaction design. Master of Science Candidate (MS) in User Experience, Kent State University, Dec '26.

Portfolio / [TomiUX](#)

Select case studies in heuristic evaluation ([Pottery Barn](#)), interaction design ([August Home](#)), usability research ([Philz Coffee](#)), and accessibility annotations for developers ([StubHub](#))

Education

Master of Science Candidate (MS) in User Experience, Kent State University, Dec 2026

Coursework: UX Evaluation, Interaction Design, Accessibility & Universal Design, Usability Research, UX Processes & Practice

Bachelor of Science (BS) in General Psychology, Capella University

Skills

Research & Evaluation: Heuristic evaluation, UX auditing, cognitive walkthrough, usability testing (moderated & unmoderated), severity rating, user interviews, surveys, affinity mapping, journey mapping, user personas

Interaction Design: Prototyping (Figma, paper), wireframing, task flow analysis, design patterns, iOS/Android UI, card sorting, information architecture

Accessibility: WCAG 2.2, VoiceOver (Mac & iOS), Color Contrast Analyzer, Coblis

Tools: Figma, FigJam, UserTesting.com, Lyssna, Maze, Loop11, Dovetail, Wave, Google Workspace, Microsoft Office, Canva, Slack, Lovable, GitHub, Claude AI

Professional Experience

Process & Operations Analyst, FRI Energy Consultants, San Jose, CA Apr 2023 – Present
(previously Office Manager, Apr 2012 – Feb 2018)

- Audit service delivery processes across 900-1,100+ contracted jobs annually to identify friction points and redesign workflows that reduce client effort and operational overhead
- Replaced manual, email-based proposal distribution with a digital proposal and e-signature workflow, achieving a 90% completion rate and a centralized repository accessible across the workforce
- Recovered an estimated \$30k in annual revenue, as measured by eliminated unpaid invoices, by redesigning the payment workflow to require payment before report delivery

Workplace Services Manager, Illumio, Sunnyvale, CA Jul 2022 – Apr 2023

- Conducted structured user research with new hires, identified onboarding pain points, and redesigned resource materials to improve clarity and usability
- Translated ambiguous post-COVID requirements into a clear Return to Work protocol that users could navigate
- Developed a digital communication strategy to improve employee awareness and engagement with workplace programs

People Experience Manager, WorkBoard, Redwood City, CA Jun 2021 – Jul 2022

- Achieved 91% user adoption within 60 days by designing and launching the company-wide intranet, utilizing intentional information architecture and content strategy to centralize resources
- Designed end-to-end attendee experience for a 250-person company off-site, owning every touchpoint from hotel to A/V to on-site engagement
- Reached 25% of the employee base by owning participant experience for a vendor-led Leadership Impact Program, managing communications and logistics end-to-end
- Planned and facilitated quarterly OKR alignment off-sites and 10+ monthly hub meet-ups for a distributed workforce

Engagement Manager, Coursera, Mountain View, CA Feb 2018 – Jun 2021
Promoted from Administrative Project Manager / Space Planner

- Conducted field observations studying how employees and visitors entered and used physical spaces, including navigating first-contact moments, using findings to inform spatial and program design decisions
- Evaluated post-event engagement through structured surveys across 900+ employees, iterating on program design based on findings
- Increased on-site capacity by 88% (425 to 800 employees) by leading a \$1.3M expansion project, conducting user research with senior leadership, and designing the spatial program to optimize workflow and collaboration
- Conceived, pitched, and executed Camp Coursera, a week-long virtual event for 800+ globally distributed employees, taking the program from idea to delivery in three weeks
- Reached 1,000+ employees during COVID by designing, branding, and launching a 5-program virtual event system grounded in research on isolation and connection needs
- Contributed to a 98% employee pulse survey participation rate by managing a \$1M employee experience budget, setting priorities, and evaluating ROI
